### **Rep. Gary Miller Designated “Champion of the Entrepreneur” by SBE Council**

WASHINGTON, DC – The Small Business & Entrepreneurship (SBE) Council has designated Rep. Gary Miller as a *Champion of the Entrepreneur* for his outstanding score on the “Small Business Scorecard for the 111<sup>th</sup> Congress,” which is the highest scorecard ranking. The SBE Council’s scorecard is based on votes that impact small business and entrepreneurship. Following this honor, Rep. Gary Miller released the following statement:

“I am honored and humbled to receive this award from the SBE Council, but it is our nation’s small businesses that deserve the applause. Small businesses are the lifeblood of our economy—they create nearly seven out of every ten jobs in our great nation. During these times of economic hardship, it is imperative that our country’s legislators demonstrate their support for the job creating sector by consistently voting for their priorities.

“Sadly, however, this is not what the Democrat Majority has done. As economic conditions continue to remain tough for our nation’s job creators, Democrats have contributed to the unfriendly atmosphere by passing legislation that raises taxes, increases mandates, balloons government spending, and imposes more regulatory burdens on small businesses. These pieces of legislation – some of which have been signed into law – have contributed to uncertainty in the marketplace and have consequently undermined U.S. economic recovery.

“The future of job creation in the United States does not rest in reckless government spending by Washington politicians and overreaching regulations issued by Washington Bureaucrats—it lies in unleashing the creativity of the American people. To bring confidence back to American entrepreneurs, I will keep working in Congress to lower taxes, increase access to affordable healthcare coverage, and reduce government intrusion.”
